

StorSoft Technology Corp

HUBZone-certified, Small Disadvantaged Business (self-certified) IT enterprise solutions firm founded in 2005, serving federal agencies, the Department of Defense, and the intelligence community. StorSoft is one of the few HUBZone small businesses that holds ISO/IEC 20243 (O-TTPS) directly, and delivers an integrated model: sell the technology, train the workforce, and staff the cleared SMEs to operate it.

Core competencies

- Enterprise IT procurement and full-lifecycle support: sourcing, quote validation, licensing, configuration, staging, deployment, and sustainment across a 2M+ product catalog secured by direct O-TTPS supply chain integrity
- Software and licensing management across multi-vendor environments, including enterprise compliance tracking proven at 100% license compliance and 95%+ user satisfaction for a federal health agency

- Cybersecurity and Zero Trust: security architecture, VAPT, continuous monitoring, ICAM, EDR/XDR, SIEM support, RMF documentation and ATO packages, CMMC/FedRAMP/DFARS 7012 alignment, and DISA STIG remediation
- Cloud and digital transformation: cloud strategy, workload assessment, secure migration, DevSecOps automation, infrastructure-as-code, and containers across AWS GovCloud, Azure Government, and GCP through IL2-IL6
- Systems integration, network operations, and data center modernization, including sustained Level 1/2 support across 5,000+ networked devices for a defense mission enterprise
- IT training and workforce development: role-based instructor-led and virtual training, labs, boot camps, exam prep, custom curriculum, and DoD 8140/DCWF workforce qualification planning across 2,900+ courses in 150+ technical domains
- IT staffing and SME augmentation: cleared, DoD 8140-qualified cyber operators, cloud architects, AI/data engineers, systems engineers, instructors, and program managers, with onboarding and governance support
- AI/ML and emerging technologies: AI strategy and governance, MLOps, RAG and document intelligence, model evaluation, secure data workflows, and adoption planning for mission and enterprise use cases

Differentiators

- Direct O-TTPS (ISO/IEC 20243) certification, not held only through a JV.
- Integrated sell, train, and staff model under one contract vehicle.
- 20+ years of federal IT delivery, with prime and JV performance across defense, civilian, health, and homeland security missions.
- Best-in-Class and Tier 2/3 vehicles across major GWACs.

Certifications and designations

ISO/IEC 20243 (O-TTPS)

StorSoft, held directly. NASA SEWP recognized supply chain integrity.

HUBZone Certified

SBA certified. Price evaluation preference, set-aside eligible.

Small Disadvantaged Business

Self-certified; graduated SBA 8(a).

DCAA-Approved Accounting

Supports all contract types, including cost-reimbursement.

ISO 9001:2015 | 20000-1:2018 | 27001 | CMMI L2

Held by JV company.

CMMC Level 2

In progress. Third-party assessment underway (not yet certified).
